Art Unit: 1714

In view of applicant's amendment and response dated 2/26/2007 following final office action was necessitated as follows. The disclosure of SAITO, GUERRA, OKI, BARBIERI and CAPORICCIO are overcome by the amendment since fluorinated polymer of amended claim 1 requires silicon functional group at the terminals of the polymer. The prior art of SAITO, GUERRA, TANAKA, CAPORICCIO, BARBIERI and OKI do not disclose fluoroelastomers having silane functionalized terminals.

Applicant's amendment however raised issue of new matter and the claims as presented before the office, contradict each other as stated below.

The present claims 1, 4-7 and 10 are still rejected under both Double Patenting rejection and anticipation rejections as stated in the office action dated 10/24/2006. Double Patenting rejections and anticipation rejections of the above claims are therefore incorporated here by reference. Claims 2, 3, 8 and 9 are objected with respect to the art.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1714

2. Claims 1, 2, 4-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no support in applicant's amendment for "at least three of Y₁, Y₂, Y₃, Y₄, Y₅ and Y₆" being alkenyls. Furthermore, claims 2, 8 and 10 include fluorinated polymers having only two alkenyl groups, which are excluded by claim 1. Claims 2, 8 and 10 therefore fail to narrow the limitations of claim 1.

Response to the Arguments

3. Applicant's arguments with respect to the disclosures of SAITO, GUERRA, TANAKA, BARBIERI, OKI and CAPORICCIO are considered moot due to discontinuation of this prior art against present claims.

4. The applicants argued that the disclosure 7,087,673 teaches Q component having an alkenyl group capable of reaction with peroxide crosslinking agent that is attached to the backbone of the molecule and not terminal.

With respect to the above argument, that is not exactly correct. See Col. 9 a chemical drawing of the suitable polymer for the disclosure '673 approximately in the middle of the page.

Art Unit: 1714

In addition applicant's claim 1 contains new matter, so unless that gets resolved disclosure '673 is still applicable against present claims.

5. With respect to the disclosure 6,576,701 – see the arguments in paragraph 4 of this office action.

6. With respect to the disclosure 6,825,267 – see the arguments in paragraph 4 of this office action.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

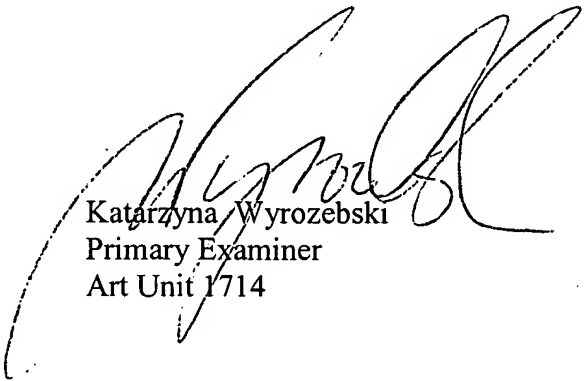

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
